

Wisconsin's No Call List has improved the quality of our family life, we are requesting that the law remain as is. We do not want to be exposed to telemarketers. Consumers, not big telemarketers, should be thought of first. Do we have any right to privacy in our homes anymore. It's should be our choice, we want to be left alone. If we wanted their business or product, we would pursue them. Not visa-versa. We are bombarded enough with advertisements in the papers, magazines, and billboards. When we are at home we just want to be left alone.
